

Appl. No. : 09/902,222
Filed : July 9, 2001

IN THE SPECIFICATION:

Please amend paragraph [0080] as follows:

Q [0080] As will be appreciated when considering Figures 6 and 7, when the helical blade 100 rotates in a counter-clockwise direction, food ingredients are generally forced downwardly towards the bottom of the pot 28. On the other hand, when the helical blade 100 rotates in a clockwise direction, food and ingredients are moved towards the top of the pot.
